

Red300 Top Class Hot Bonder

- For inductive heating FLEXIN HEAT®
- Precise heating of custom geometries
- Operation via mobile 10.1" tablet and integrated WLAN
- Easy adjust of the heating ramp and process monitoring via easyHeat software
- User-defined control of the heating process (spec.temperature sensor, average, min/max value).
- 16 temperature inputs
- Customer-specific modification possible (e.g. connector type, frequency...)

Red300 Technical Data

Power consumption:	Max. 3000 W
Mains supply:	230 VAC / max. 16 A
Dimensions:	480 x 370 x 205 mm ³
Weight:	14 kg
Protection class:	IP 67 (closed, during transport)
HMI:	10.1" touchscreen, msquare App
Software:	easyHeat
Temperature sensors:	Up to 16 temperature inputs
Temperature control:	Selectable (specific sensor, average value, min/ max temperature)
Emergency stop:	Activates when max. temperature is exceeded
Language:	English, German, others on request
Part number:	000-RED-300-XX
